U.K.-CEYLON TEA PURCHASE TALKS AT A STANDSTILL

LONDON, Monday.—The Ministry of Food confirmed to Reuters today that negotiations are at a standstill between Ceylon and the United Kingdom for bulk purchase of tea.

No reply from the Ceylon Government has yet been received to the United Kingdom offer—made in November—for bulk purchase of Ceylon's 1947 crop.

It is expected that Ceylon will inform the United Kingdom Government when the first Colombo tea auctions are to take place, a Ministry of Food spokesman said.—Reuters.

CALCUTTA ELECTRIC WORKERS TO STRIKE ON JAN. 21

CALCUTTA, Monday.—The workers of the Calcutta Electric Supplies Corporation at a meeting yesterday decided to go on strike from January 21 next if in the meantime their demands are not met by the management. The meeting accordingly directed the secretary of the Electric Workers Central Council of Action to serve a three weeks' strike notice on the management.

The workers' demands include increase in wages and other improvements in service conditions.—A.P.I.

Hope of Major Indian Parties Joining Hands Together: Good Prospects Ahead In 1947

NEW YORK, Tuesday.

DR. LANKA SUNDARAM, member of the Indian Delegation to the United Nations, in a New Year statement in which he discussed problems and prospects of India during the coming 12 months told Reuters yesterday: "International recognition of national unity and independence and economic rehabilitation are bound to be three important landmarks in India's endeavour in 1947."

"After the resounding victories scored in the United Nations Assembly the centre of world attraction shifts to India which in 1947 is holding sessions of the Inter-Asian Nations Conference and the International Regional Labour Conference."

"There is quiet confidence in international circles that India will march ahead with her plans of national consolidation and international co-operation."

Dr. Sundaram added: "It is obvious the people of India must pull together and constitute a national State once the present unloosened conditions cease as they must very soon."

There is still hope in India that the major political parties will come together and join in common activity calculated to preserve the territorial and political unity of the country either on the basis of a federal or confederal Republic.

"It is unfortunately true that India today is almost overwhelmingly obsessed with political questions. This does not mean that India is not grappling with the supreme problem of feeding her people and making their standards of living tolerable."

"Land reform, including expropriation with compensation of absentee landlords for distribution of released land among tenant farmers, is now on the legislative anvil in several Indian Provinces."

"Reconstruction and developmental programmes are under way and the target in India is expenditure of thousands of crores of rupees towards the rising national income and standards of living."

"India is a creditor nation today," Dr. Sundaram said, "and it is logical that India would continue for some time yet as an importing country utilising raw materials to a greater extent than before for internal processing and manufacturing industries while importing capitals goods and technical assistance from abroad."

"India's finances are sound and the first Indian Finance Minister, in February next, is bound to get a move on with the proposed death duties and other taxes calculated to batter down deficits inherent in the country's economic system which is notorious throughout the ages for glaring inequalities in income."

"The poor man dominates the India of the future with the result that the present disturbed conditions of politics are inevitably bound to fade away sooner than most people expect."—Reuters.

FOREIGN SCIENTISTS TO ATTEND INDIAN SCIENCE CONGRESS

LONDON, Monday.—British, French, American and Canadian scientists were among a party of 18 who arrived at the London airport today to fly to India to attend the Indian Science Congress in Delhi. Bad weather delayed their departure today and they are now expected to leave early tomorrow.

The Delegation is led by Sir Charles Darwin, the head of the National Physics Laboratory and one of the leading British atom scientists.

Pandit Nehru, who is the President of the Congress, will receive an address written by Sir Harold Dale, President of the British Association of Science.

Sir Harold Spencer Jones, the astronomer royal, told Reuters: "The talk we shall have at the conference in India and the general exchange of ideas will help to promote friendliness between nations."

S. AFRICAN TRADE UNIONISTS SUPPORT SMUTS

JOHANNESBURG, Monday.—Two leading South African trade unionists stated today that the vast majority of trade unionists in the Union would support Prime Minister General Jan Smuts' "fight to maintain the white standard of civilisation."

They were Mr. A. Downes, President of the South African Trades and Labour Council, to which is affiliated many leading trade unions, and Mr. G. McCormick, Secretary of the Joint Committee of Nine Mining Trade Unions.—Reuters.

7500 TONS WHEAT RELEASED FOR RELIEF IN JAPAN

TOKYO, Tuesday.—General Douglas MacArthur, Supreme Commander of the Allied Forces in Japan, yesterday authorised the release of 7,500 metric tons of wheat flour for the areas stricken by the recent earthquake including the badly hit island of Shikoku where the British Commonwealth occupation forces relief service continues.—Reuters.

Malaya Union Attacks Britain's Sarawak Policy

LONDON, Monday.

THE Malayan National Union of Sarawag has protested in a telegram received in London today against a circular said to have been issued by the Sarawak Chief Secretary threatening the dismissal of any Government servant "associating himself" with anti-cession activities.

The Union also has attacked British Government's refusal to allow Mr. Anthony Brooke, nephew of the former "White Rajah" who ceded the state to the crown last July, to enter Sarawak. The Government circular, said the telegram, has hit the people of Sarawak "like an atom bomb".

"As most Government servants are members and supporters of the Malayan Union" it added, "they have appealed to the Union to protest against Government action. It appears that the authorities are trying, by every possible means, to restrain the indigenous population from protesting against the illegal cession."

The Malayan Union claims that the cession was illegal on the ground that a majority of native representatives in the Rajah's State Council voted against it.

On the ban against Mr. Brooke's entry the telegram state: "The people are ready to give him a great but peaceful welcome. The people of Sarawak remain firm in their loyalty to Tuam Muda and Raja Muda (Mr. Anthony Brooke and his father) as rulers of Sarawak."—Reuters.

300 TONS OF TOOLS TO BE SHIPPED TO INDIA

BIRMINGHAM, Monday.—The loading of a convoy of 30 lorries with 300 tons of machine tools to be shipped to India began at Birmingham today, prior to the departure of the consignment tomorrow to the London docks for shipment. The machinery of a type now redundant so far as the British industry is concerned, was purchased by Mr. Hasanbhai Etha of Bombay during a visit to Britain recently when he made a series of purchases totalling 250,000 sterling in value.

The 300 tons, leaving Birmingham tomorrow, represents Mr. Hasanbhai's purchases from Norman E. Potts (Birmingham) Limited.—Reuters.

BRITAIN ASKS FOR FRENCH MEASURES IN SAAR

LONDON, Monday.—Britain has asked the French Government for details of actual administrative decrees under which the Saar territory will be controlled, following the creation of a Customs barrier between the Saar and the rest of Germany. It was learned on good authority this afternoon.

The position is that though Mr. Ernest Bevin was informed of the general scope of the intended French action in New York earlier this month, texts of the administrative measures which have now been brought into effect, are not yet in the possession of the foreign office.—Reuters.

SAIYIDAIN'S APPEAL TO END MUTUAL STRIFE

TRIVANDRUM, Tuesday.

I WOULD appeal earnestly to all political leaders, to all teachers and parents, to all young men and women who inhabit this great land which is today plunged in shame and mourning at the misdeeds of its own children—to realise wither we are going and to cry a halt to this madness"—thus observed Mr. K. G. Saiyidain, Educational Advisor to Rampur State, in the course of his presidential address on Sunday evening at the fourth All-India Adult Education Conference.

He added that political and human reasons had brought the issue of adult education to the forefront. We were on the verge of great political changes which would determined perhaps for centuries to come the shape of things to come in our country.

People could not retain this political liberty unless they were prepared to pay the price for it in terms of eternal vigilance which postulated proper civic and political education.

Unless we could bring the total impact of an enriched adult education to bear on life of an illiterate adult and widen his horizon of knowledge and appreciation, we could not succeed even in our narrow objective of imparting literacy.

Outlining the task before the Indian Adult Education Association of Delhi, the President said that firstly it should mobilize public opinion and political influence to ensure that immediate attack is made on the adult education front on a nation-wide scale and all Provinces and States should launch carefully thought-out programmes.

Secondly, it should provide technical leadership, that is, offer sound advice on any issue that might be referred to it by official and non-official organisations, engaged in this work and should conduct small-scale experiments in new ideas by way of demonstration.

The President urged further that a

careful study should be undertaken of the role of mass media of communication such as journals and newspapers, films, plays and radio programmes with the object of integrating them properly into our educational structure. Concluding, Mr. Saiyidain appealed for communal harmony and urged that one of our primary programmes was to rebuild shattered and bleeding fabric of human values and instill into all our fellowmen genuine appreciation for decency, tolerance, freedom and respect for human life.—A.P.I.

STILL GOING STRONG

JOHANNESBURG, Tuesday. Haji Peerbhai, 71-year-old Capetown Indian, whose fourth wife has just borne his 30th child, said he hopes to have at least six more babies. "I am still fit—and so is my wife," said Haji Peerbhai, adding "there is no reason why I should not have more children."—A.P.A.

RUSSIAN INTERFERENCE IN DAIREN DISFAVoured

NANKING, Monday.—A Chinese Foreign office spokesman declared today that the Chinese Government does not interpret the Sino-Soviet treaty as permitting the Russians to remain in Dairen until a peace treaty was signed with Japan.

He added that the Chinese Government did not recognise that a State of war existed at present between China and Russia on the one hand and Japan on the other. He said that Chinese Communist obstruction was alone responsible for the fact that the Government had not yet taken over control of the administration of Dairen.—Reuters.

U.S. ACCUSES RUSSIA OF BREAKING PROMISES

WASHINGTON, Monday.—Charge of economic enslavement, political terrorism, religious repression, broke promises and ambitions for military power were levelled against Russia today by a special committee of the U. S. House of Representatives on post-war economic policy.

The committee report—the sharpest official criticism of Russia in Congress since the Soviet Union went to war with Germany—demanded that the United States assert "positive leadership" in European economic affairs.

Simultaneously, the committee asserted that if Russia were actually found to be using German war plant to rearm, the western Allies should denounce the entire Potsdam Big Three agreement and demand that the Russians "evacuate Germany completely"—A.P.A.

BRITAIN DENIES ANGLO-U.S. MUTUAL AID PACT

LONDON, Monday.—A British Foreign Office spokesman today categorically denied reports appearing in the French Press recently that Britain and the United States would sign a mutual aid pact next spring covering financial, economic and military resources. He said the position was the same as when the Prime Minister told the House of Commons on November 1 that the Anglo-American staff talks were of an entirely normal kind.—Reuters.

[LARGEST DAM TO BE BUILT IN LATIN AMERICA

URUGUAY, Tuesday. A scheme to build the largest dam in Latin America at an estimated cost of £62,500,000 in the river Uruguay was disclosed here today, when the Uruguayan and Argentinian Government representative signed an agreement for the purpose. The work is to be undertaken by the two Governments jointly.—Reuters.
